BOURSE DES VALEURS MOBILIÈRES
DE L'AFRIQUE CENTRALE

DIGITAL BRAND GUIDELINES · WEBSITE AND MOBILE APP

The BVMAC *digital identity*

Version 0.2 · October 2026 · Appel d'offres
n°030/06/BVMAC/DG/DSI/07-26

What changed since v0.1

v0.1 was written before the build. v0.2 describes the website and app as they are built: Fraunces and Geist replace Montserrat and IBM Plex; colour values match the shipped tokens; pages are light with warm brown accents; the app is Expo / React Native, information-only, with no user account. Where the official BVMAC charte graphique gives different values, the charte wins.

01 Logo

Use the supplied files only. Never redraw, retype or recolour the logo.

Primary

On ivory, white or sand.
Website header, documents.

Reversed

On night brown only. Footer, dark mode, video.

Medal alone

Where space is tight and the name is shown nearby: favicon, app header, avatars.

App icon

Medal centred on night brown.
No text in the icon.

Clear space and size

- Empty margin on every side equal to a quarter of the medal's height.
- Full logo: 160 px minimum. Below that, the subtitle and flags become unreadable: use the medal alone.
- Medal: 32 px minimum.
- Website header: full logo, 52 px tall on phones, 64 px on desktop.

Never

- Stretch, rotate, outline or add effects.
- Place the primary logo on a dark or busy photo.
- Recolour the medal or the flag strip.
- Rebuild the wordmark in another font.

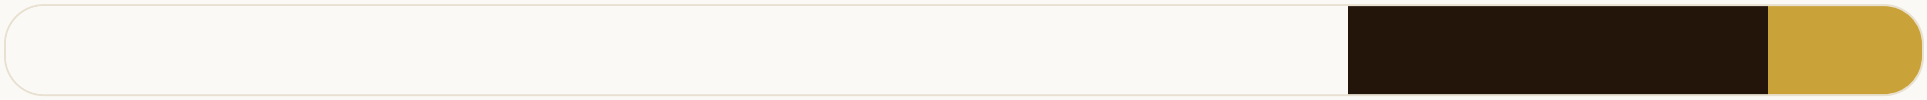

The six flags

The logo carries the six CEMAC flags. Flag colours appear only inside flags and country chips (Cameroun, Centrafrique, Congo, Gabon, Guinée équatoriale, Tchad), never as interface colours.

🇨🇲 Cameroun · 🇨🇫 Centrafrique · 🇨🇬 Congo · 🇬🇦 Gabon · 🇬🇶 Guinée équatoriale · 🇹🇩 Tchad

02 Colour

Warm ivory pages, brown for structure and a few accent panels, gold as the highlight.

≈ 70% ivory, white and sand · ≈ 22% browns (market card, ticker band, one feature panel per screen, footer) · ≈ 8% gold (buttons, highlights, icons). A page never has two full-width dark sections in a row.

BROWNS

Brown
#5A3412
Price lines, illustrations. 10.3:1 on ivory.

Deep brown
#3A2414
Ticker band, top of dark cards.

Night
#24150A
Dark panels, footer, app splash. Ivory on it 16.4:1.

Espresso · action
#1C130B
Primary buttons and selected states on light pages.

GOLDS

BVMAC gold
#C9A23A
Buttons, rules, icons. 2.3:1 on ivory: never text on light.

Gold text
#8A6614
Gold words and labels on light. 5.0:1.

Gold light
#EAD18A
Labels and figures on night. 11.8:1.

Gold panel
#F3E2B0 → #D4B25A
One feature card (BOC, “Lever des fonds”). Night text 13.7:1.

NEUTRALS AND MARKET SIGNALS

Ivory
#FBF9F5
Page

Sand
#F4EFE5
Alternate sections, panels

Line
#E8E0D0
Borders, dividers

Ink
#1A140E
Text 17.4:1

Muted
#6B6155
Captions 5.8:1

Rise #157A43 · 5.1:1
Price up only. Always with ▲ and +.

Fall #C0263D · 5.6:1
Price down and errors. Always with ▼ and –. Unchanged: muted with ■.

03

Typography

Two open-source families, self-hosted, covering French, English and Spanish.

Aa

Fraunces

Display and headings (H1, H2), card titles, the italic gold emphasis. Weight 400, soft optical axis. Echoes the engraved medal.

Aa

Geist

Body, navigation, buttons, forms, tables, H3 and labels. Weights 400, 500, 600.

1 795,9

Geist · tabular figures

Prices, volumes and amounts use Geist with tabular figures so columns line up. Geist Mono only for codes (ISIN, BOC numbers).

STYLE	EXAMPLE	SPEC (WEB)
Display	La bourse *de l'Afrique centrale*	Fraunces 400 · 34 → 84 px · line 1.02 · tracking −3.5%
H1	Sociétés cotées	Fraunces 400 · 36 → 58 px · line 1.05
H2	Échos du marché	Fraunces 400 · 28 → 42 px · line 1.1
H3	**Bulletin Officiel de la Cote**	Geist 600 · 18 px · line 1.4
Body	Les ordres passent par une société de bourse agréée.	Geist 400 · 16 px · line 1.6
Small	Publié le 25 septembre 2026 · PDF, 1,2 Mo	Geist 400 · 14 px · muted
Overline	MARCHÉ DES ACTIONS	Geist 500 · 12 px · capitals · tracking 14% · gold text

Writing numbers (French)

Thousands	`9 073 000 000 FCFA`
Decimals	`1 250,50`
Change	`▲ +1,25 %`
Dates	`08/10/2026 · 08 oct. 2026`
Large amounts	`1 795,9 Md FCFA`

Non-breaking space before % and units, and before : ; ! ? in French. English pages use 9,073,000,000 and 1.25%.

Tone of voice

Institutional, clear and educational. Short sentences, active voice, no jargon without a glossary link. Never promise returns or urge people to buy. French is the source language; English and Spanish follow it.

Mobile app

Same two families. Sizes scale with the screen width and stay smaller than on the web (titles 22–30 px, body 14–15 px).

04 Interface and layout

Shared by the website and the app. Touch targets at least 44 px.

Home page as built: light hero on ivory with the BVMAC building, one night-brown market card, gold primary button.

Buttons

Primaire | Mise en avant | Secondaire | Lien texte →

Pill shape. One primary or gold button per block. Focus ring 2 px gold.

Shapes

Tags	6 px
Inputs, controls	12 px
Cards	20 px
Feature panels	28 px
Buttons, chips	full

Cards

White on ivory, 1 px line border, soft warm shadow (0 12 32 −16, 18%). Lift 4 px on hover. Dark cards use night brown with a faint gold glow; gold cards use the gold panel gradient.

Avis | ▲ +0,03 % | ▼ −0,15 %

Grid and spacing

Website: content up to 1 280 px wide, 20 px side margins on phones, 32 px on desktop. Spacing on a 4/8 px scale (8, 16, 24, 32, 48, 64). App: 20 px side padding; on a desktop browser the app sits in a centred 460 px column.

Imagery

Real BVMAC photos only: the Douala building, the trading floor, listing ceremonies, issuers' sites in the six countries. Warm natural light. Photos sit behind light overlays on ivory pages. No stock handshakes or foreign trading screens.

05

Motion and social media

Calm, purposeful motion; one consistent look across site, app and posts.

Motion

- Entrances: fade and rise 12–40 px, ease-out (cubic-bezier .16, 1, .3, 1), 0.6–1 s.
- Headlines reveal word by word in CSS, so text is visible before scripts load.
- Figures count up once when they appear; charts draw from left to right.
- Market ticker scrolls slowly (45 s per loop) and pauses on hover.
- The ticker, counters and headline reveals respect the reduced-motion setting.
- App: press feedback on every tap, light haptics, sliding segmented controls.

Social media

- Profile picture: medal on night brown, 800 × 800 px, same file on Facebook, LinkedIn, X and YouTube.
- Posts 1 080 × 1 080: medal top left, one message in Fraunces, source line at the bottom (Source : BVMAC · bvmac.cm).
- Link previews 1 200 × 630, generated for every page, issuer and notice.
- Only facts from an official avis, communiqué or BOC; always link the source.
- No price predictions, no “buy now”.

06

Mobile app

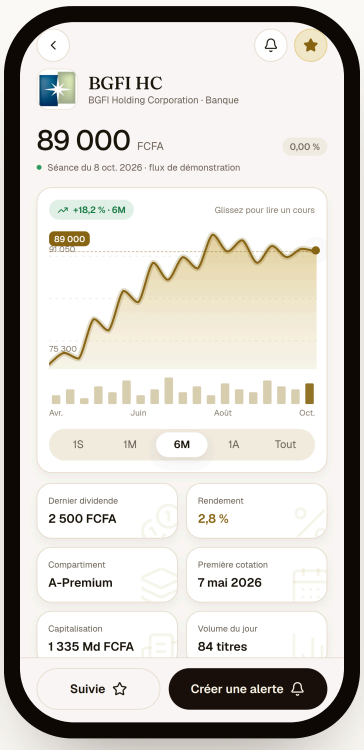

Android, iOS and web from one Expo / React Native codebase; same palette and fonts as the website.

Welcome: medal, one sentence, “Commencer”. No sign-up.

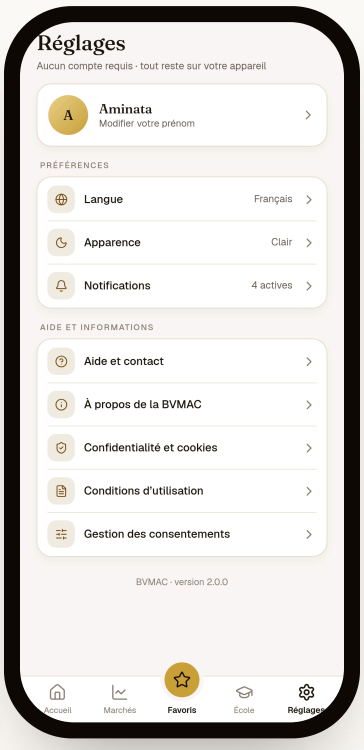

Home: night-brown market card, gold area chart, favourites.

Security: price, chart read with a finger, Follow and Create an alert.

École: paths, lessons, quiz, XP and badges.

Settings: optional first name, language, theme.

Structure

Five tabs: Accueil, Marchés, Favoris (centre, gold), École, Réglages. Information and education only: no orders, no portfolio, no payments, no user account. Data stays on the phone.

Icons and splash

App icon: medal on night brown (iOS 1 024 × 1 024; Android adaptive with the medal in the safe zone). Splash: night brown, medal centred, under 1.5 s. Interface icons: Lucide outline, 1.6–2 px stroke.

Notifications

Title says what, body gives the detail, no emoji. Examples: “BOC publié · Séance du 14 octobre 2026”; “Alerte de cours · BGFI HC a franchi 90 000 FCFA”. Sent only for topics the user chose.

07

École de bourse

Rewards learning, never trading.

PARCOURS

Investir à la BVMAC

3 leçons sur 8 · 12 min restantes. The bar is always paired with the text.

Quiz feedback

✓ Bonne réponse · La COSUMAF

✗ Votre choix · La BEAC

Right and wrong always show an icon and a word, plus one sentence of explanation.

Levels and XP

Débutant → Apprenti investisseur → Investisseur → Investisseur averti. XP for lessons and quizzes; a weekly streak with one free day. Badge names are plain French nouns, never ranks like “trader”. The website simulator is always labelled “Simulation · argent virtuel”.

08 Consent and privacy

Cameroon law n°2024/017. Refusing is as easy as accepting.

Website banner, first visit. “Tout refuser” and “Tout accepter” have the same style and size. No pre-ticked choices.

Website

- Categories: strictly necessary (always on), audience measurement, third-party content (YouTube). Optional categories start off.
- A “Gestion des cookies” link in every footer reopens the panel.
- Every form that collects personal data has its own unticked consent box, a one-line purpose and a link to the policy.
- The privacy page offers a request form for access, correction or deletion.

Mobile app

- No account, no phone number, no password.
- First launch: welcome, then a consent screen (notifications, statistics, third-party content), then home.
- Favourites, preferences, first name and École progress stay on the device.
- Choices can be changed in Réglages › Gestion des consentements.

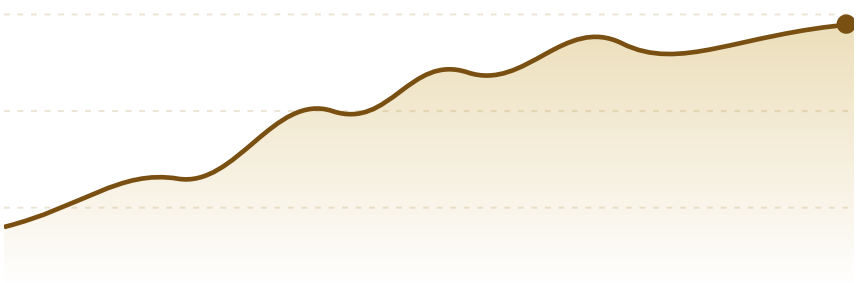

To confirm with BVMAC’s DPO

Data controller and DPO contact · how long a consent choice is kept · retention period per data type for the register of processing.

09 Charts

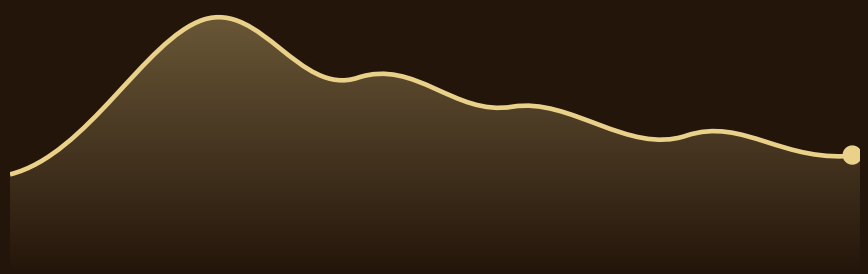

A price is a warm brown line over a gold fill; colour never carries meaning alone.

Price chart · light

Line #7A4F12 2–2.4 px, fill gold 35% → 0, dashed horizontal grid #ECE5D6, last point marked, scrub cursor with a value bubble.

Price chart · on night

On night brown the line turns gold light #EAD18A with a soft glow; labels in sand.

Volumes and splits

Volume bars in pale gold, the latest session in gold text colour. Shares by country (bond lines) use a gold-to-brown ramp: #F3E2B0 · #E2C26A · #C9A23A · #8A6614 · #5A3412.

Chart rules

- Green and red are reserved for price direction, never for series.
- One y-axis; compare different units in two charts.
- Values and labels in ink or muted colours.
- Periods: 1S, 1M, 6M, 1A, Tout, as a sliding segmented control.
- Every market chart states its session date and “données différées”.

10

Dark mode and data states

Dark mode is warm brown, never grey or blue. Light is the default.

Token mapping (website)

TOKEN	LIGHT	DARK
background	#FBF9F5	#0E0A06
surface	#FFFFFF	#16100A
surface-alt	#F4EFE5	#1D160E
line	#E8E0D0	#2C2217
text	#1A140E	#F3ECE0
text-muted	#6B6155	#B3A690
action	#1C130B	#D9B451
link	#7A4F12	#E6C36A
accent	#C9A23A	#D9B451
rise / fall	#157A43 / #C0263D	#4CC27E / #FF7A86

In dark mode the primary button turns gold with night text (9.8:1). All text pairs stay above 4.5:1. The app uses the same roles (page #120C06, cards #1D150C, gold #D4AE45).

Loading

Sand skeleton shaped like the content. The app needs none: its data is instant.

Empty

“Aucun avis pour ces filtres.” + a link to clear the filters.

Market closed

“Séance fermée. Cours de clôture du [date]; prochaine séance [date, heure].” Neutral, not an error: prices stay visible with their date.

Data error

Say what failed, show the last good data with its time, offer a retry.
